“Every mountain top is within reach if you just keep climbing.”

Due to the duration of the trip, packing the minimal amount of clothing possible (without sacrificing comfort or warmth) is our goal. Food

- Breakfast(X8)- A hot meal can give you an extra boost, true, but a light snack means no cleanup and a quicker start to the day. Tips: Instant hot cereal, breakfast bars, granola, dry cereal, instant tea, instant coffee, juice, dried fruit. Since it's a shorter trip you can bring fruit as well.
- Lunch (X8 - Rather than take a prolonged break for a midday meal (involving unpacking, preparation, cleanup and repacking), a quicker strategy is to graze on a series of modest energy-boosting snacks throughout the day. Tips: Jerky, sausage, cheese, dried fruit, fig bars, bagels (best for shorter trips), energy bars, trail mix, and nuts.
- Dinner (X5 - This is your reward for a day of exertion. Backcountry gourmets don't mind the extra challenge of creating hearty meals out in the great scenery. Most weary backpackers, though, opt for the just-add-boiling-water convenience of prepackaged freeze-dried or dehydrated meals, or simple dishes such as pasta. Tips: Packaged meals, pasta, instant rice, ramen noodles, instant soups and sauces, instant stuffing, instant potatoes, dried meats. Consider bringing along some favorite spices (onion and garlic powder, basil, oregano).

I have put a couple extra days of food. Just in case if there is an emergency.

Dehydrated/Freeze Meal Brands: Happy Yak, Peak Refuel, Mountain House, Heather's Creations, Crave, Backpackers Pantry, and Thrive are all amazing brands if you would like to look online or around in your nearby stores. It is a great idea to pack light, I recommend dehydrated/freeze dried meals and have seen people get really creative with making their own food before.

Mandatory Backpack Night

I will announce a date later on in the year. I will email meeting ID and password closer to the date to the zoom call.

If you can't make it to the gear check night, please give me a call.

I recommend going with a friend. Using a buddy system can help you out with weight. One person can carry the stove. One person can carry the tent. Etc. It will eliminate congestion at the camp spot. If you're coming by yourself, I can organize another person that is coming by themselves to partner you with.

- It's essential that all participants attend this meeting. Arrive with your gear packed or out where you can see everything. Guides will review the trip itinerary, participants' expectations, do an equipment check and divide group gear.

Transportation

Transportation will not be provided to Muncho Lake.
